state of michigan telephone directory

INTRODUCTION

The Department of Technology, Management and Budget (DTMB), Office of Telecommunications and Network Management (T&NM), is responsible for the management and administration of the telecommunication services for the State of Michigan. This telephone directory is published by the T&NM Telecommunications Division for use by state agencies and their employees.

STATE OF MICHIGAN TELEPHONE NETWORK (MINET)

MINET is the State of Michigan's intercity telephone network. The state network routes callers to locations in Michigan, the United States, and the world via a network using the lowest cost route. MINET dialing instructions can be found on page v in this directory.

PERSONAL LONG DISTANCE CALLS ON MINET

The use of state telecommunications facilities are governed by the Administrative Guide to State Government, Procedures 1210.13 and 1310.16. The guidelines for the use of telephone facilities are summarized in the Department of Technology, Management and Budget, Administrative Services Advisory Memorandum 97-2.

Personal long distance calls on MINET constitute avoidance of state and federal taxes. Further, personal calls, when charged to the state, are clearly contrary to the proper use of these facilities. Personal calls must be charged to the caller's residence telephone, personal credit card, special telephone billing number, or made from a pay station.

Audits will be made of telephone statements. Individuals making personal calls from state facilities will be subject to applicable legal and/or administrative sanctions.

DIRECTORY LISTINGS

Telephone numbers in the alphabetical personnel listings section of this directory are routinely maintained by the State of Michigan information operators. These listings must be updated by use of **Form DIT-0918. Whenever situations occur such as telephone numbers being exchanged between staff, name changes, transfers, new hires or retirements, it is critical that agency or site coordinators are notified.** Agency and site telephone coordinators are the authorized individuals who can process this form to ensure your listings are maintained in a timely and accurate fashion. For callers both within and outside State government, advice on obtaining current telephone numbers for state employees from state information operators can be found on page vi in this directory.

Personnel listings in this directory were published from information supplied from the State Information Operator databases and verified by state agencies during the Summer of 2010. Also included herein are organizational listings for the Executive Agencies, Michigan Legislature, Judiciary, public colleges, universities, community colleges and employee organizations. The information in this directory is only as current as the information provided by the agencies.

TROUBLE REPORTING – DIT PROVIDED SYSTEMS

DTMB System phone problems must be reported to your agency telephone coordinator or **designated site representative** for resolution.

Agency and Site Coordinators may reach the Telecommunications and Network Management “Help” Center in Detroit at 6-4357 and in Lansing at 5-4357.

Please verify that phones are plugged in properly and all features, such as “Call Forwarding” and “Send All Calls,” are deactivated before reporting trouble.

TROUBLE REPORTING – CENTREX/OTHER NETWORK LOCATIONS

Remember, when reporting telephone line or equipment problems, give:

1. Your name, telephone number, location, department, and section.
2. A description of the trouble encountered, including the location and telephone number of the station where the trouble was experienced.
3. The time of day that the trouble was encountered.

Report all trouble to the vendor who installed or supports the local office telephone system. In some instances, the vendor may be DTMB, Telecommunications and Network Management. If the vendor’s name or telephone number is not known, please call your department telephone coordinator.

483-	Lansing	Military Affairs
337-	Kalamazoo Centrex	
760-	Flint Centrex	
780-	Jackson Centrex	

Please report any dialing inconsistency to your agency coordinator for changes to be included in the next state directory update.

CONFERENCE CALLING

There are three general conference calling categories that are handled in different ways.

1. To make a three (3) way conference, use the conference feature on your phone system. This may vary from system to system, so refer to training material, or ask your vendor.
2. You can connect up to 6 parties from a DTMB provided digital telephone with multiple line appearances. The instructions are located at www.michigan.gov/ditservice. Click on Telecommunications, audio/video conferencing, audio conferencing.
3. For all other conference calls, use the State's contracted services. You will need to contact your agency telephone coordinator or your authorized agency contact to set up an audio conferencing account. You can find this information at www.michigan.gov/ditservice. Click on Telecommunications, audio/video conferencing, audio conferencing, agency telephone coordinator or authorized agency contact.

STATE INFORMATION OPERATOR ASSISTANCE

To reach State Information Operators from DTMB Provided Systems:

ALL DTMB Provided Switches	Dial 0
DTMB Provided Lansing and Detroit Centrexes	Dial 7+31837

To reach State Information Operators from other State locations or for the Public:

From Detroit.....	Dial (313) 456-1837
From Lansing.....	Dial (517) 37-31837
From Saginaw	Dial (517) 758-1837
From all other cities	Dial (517) 37-31837

OUTSIDE OPERATOR ASSISTANCE*

To reach SBC Local Operator from All DIT Provided Systems (see page v)Dial 9+0

To reach SBC/Sprint Long Distance OperatorDial 9+00

* Outside Operator Assisted Calls may be completed if the call is billed via: (1) Calling Card, (2) Collect Call and (3) Third Number Billing.

CREDIT CARD CALLS

Credit/Calling card calls may be completed, without Operator Assistance, by dialing the caller's long distance company 800 number for access. For example, to make a call using an MCI calling card, dial 9+1+800+674-7000 and wait for the prompt for further instruction.

Using an SBC, GTE, or a Sprint calling card, callers may complete a call by dialing 9+0+ten digit number. (Sprint Long Distance Operators will accept Local Exchange Carriers calling cards for completing an Inter-LATA call.)

All other Calling Card users should contact their Long Distance Company for method(s) of call access.

voice mail tips

Some voice mail users have found shortcuts to move through their messages. For example, they know they can bypass prompts or speed up messages when they are in a hurry. They also know they can use the “#” key to skip through messages to find a particular one they want to hear first.

Some of these shortcuts may produce undesired effects. For example, users may think that they are not getting messages on time. The following hints and tips will help users ensure that their messages are always fresh and timely.

* Main Menu	To exit the system, always use the “*” key. If you have any unheard messages in your mailbox, the system will play the “check new messages” prompt just before it disconnects. You won’t hear this prompt if you just hang up.
* 0 During Review	During review, press “*” (to return to the Main Menu) and “0” to find out exactly how many new and archived messages you have remaining in your mailbox.
5 Main Menu	Press “5” in the Main Menu to allow you to restart your session. If you have new or skipped messages in your mailbox, you will hear “check new messages.” Enter your mailbox number and password to begin the session again.
During Review	Press “5” during message review to hear envelope information to let you know the name of the sender, the date and time the message was sent, and the length of the message. Be aware that the envelope of a networked message tells the time and date the message was recorded, not the time it was networked.
# During Review	Pressing “#” once during message review allows you to skip to the next message.
After Review	If you press “#” after listening to a message, that message is considered skipped for that reviewing session. Skipped messages remain in the message queue as new but heard messages.
## During Review	Pressing “#” twice allows you to skip to archived messages.
6 After Review	Press “6” after listening to a message to send a copy of that message to someone else. Be sure to record a short introduction so the recipient will know that you have forwarded the message. Otherwise, for example he or she might wonder why the message was obviously recorded two days before, but the envelope says it was delivered only minutes ago.
0 Main Menu	Press “0” once in the Main Menu to learn how many new messages are in your mailbox. Any Other Time Press “0” once at any other time to hear a help prompt repeated or additional help prompts.
00 Any Time	Press “0” twice at any time to reach a support person within your office.
1 During Review	Allows you to back-up in the current message by 10 seconds, repeat that 10 second portion and continue playback. Pressing “1-1” will back-up to the beginning of the current message, repeat the entire portion of the message, and continue playback.
3 During Review	Allows you to forward in the current message by 10 seconds (skip 10 seconds). Pressing “3-3” allows you to get to the end of your message so that you can store or erase your message. This is especially useful when attempting to delete long messages which have dial tone recorded at the end.
9 During Review	Increase message Volume
8 During Review	Return message volume to normal level.

voice mail networking

"Networking" allows State employee voice mail users to exchange voice mail messages with other State voice mail network locations (from one State voice mail system to another State voice mail system).

How to send a "Network" message

1. Access your mailbox
2. Press "2" on the main menu to "Send a Message"
3. Record your message
4. When finished recording, press "#"
5. Enter network address, 7 digits (see below)
6. You will hear the name of the network location and mailbox number for confirmation.
7. Press "#" to send message. The message created will be delivered to the indicated mailbox on the "network" voice mail system.
